**New Industrial DC Diesel Generator Set Offers Compact, Yet Powerful Solution**

*Generac Industrial Power introduces latest member to its generator family*

WAUKEHSA, Wis. – December 03, 2019 – Generac Industrial Power is a national and global leader in backup power and the innovation continues with the company’s latest gen-set. The SDC015 is the first liquid cooled direct current (DC) unit featuring one of the smallest footprints on the market and at 57 volts, this unit can pull 15 kW of power. The SDC015 features a quiet 1.5L diesel engine that produces only 65 dBs of sound.

The SDC015 is designed to back up multiple global applications, including wireless communication and telecom applications, hybrid energy systems and DC power solutions. The unit is U.S. Environmental Protection Agency (EPA) Final Tier 4 certified and integrates well within a solar and/or wind solution. The SDC015 operates as a constant supply of power or a battery charger. The unit also has 125% spill containment for fluids such as oil and coolant. The SDC015 is UL2200 listed and features the DSE 7310 MKII control system.

Generac Industrial Power is committed to ensuring our customers’ support continues after their generator is purchased. We have a large dealer and service network around the United States and around the globe to offer support during every part of the ownership process.

## **About Generac**

Generac Power Systems, Inc. (NYSE: GNRC) is a leading global supplier of backup power and prime power products, systems and engine-powered tools. In 1959, our founder was committed to designing, engineering and manufacturing the first affordable backup generator. Sixty years later, the same dedication to innovation, durability and excellence has resulted in the company's ability to expand its industry-leading product portfolio into homes and small businesses, on job sites, and in industrial and mobile applications across the globe. Generac offers single engine backup and prime power systems up to 2 MW and paralleled solutions up to 100 MW, and uses a variety of fuel sources to support power needs for our customers. We are proud to be named, in back-to-back years, the Frost & Sullivan 2014 and 2015 North American Natural Gas Generator Set Company of the Year. Generac also hosts Power Outage Central, the definitive source of U.S. power outage data, at [Generac.com/poweroutagecentral](http://Generac.com/poweroutagecentral). For more information about Generac and its products and services, visit [GeneracIndustrialPower.com](http://GeneracIndustrialPower.com).
