**Generac Mobile Joins Sourcewell Cooperative Purchasing**

*Partnership to provide streamlined purchasing processes*

BERLIN, Wis. – September 05, 2019 – With the customer in mind, Generac Mobile is now part of the Sourcewell cooperative purchasing. Sourcewell, formerly the National Joint Powers Alliance (NJPA), helps government, education and nonprofit agencies operate more efficiently by helping save time and money with contract purchasing solutions nationwide. Generac Mobile equipment with related accessories and attachments can now be purchased through this program.

Sourcewell satisfies the competitive solicitation process on behalf of their members in government, education, and non-profits. Sourcewell contracts allow their members to get what they need, when they need it, without duplicating the same bidding process. With Generac Mobile's newly awarded contract, dealers can now sell direct to Sourcewell members in government, education and non-profits saving their customers time and money. Generac Mobile is committed to supporting you before, during and after the sale and our technical support team is available 24/7/365 should you need assistance. Sourcewell membership is available to all government, education, and nonprofit organizations at no cost and no obligation.

Sourcewell contract #041719-GEN gives you access to our generators, light towers and the rest of our portable construction equipment. To view our products on Sourcewell, click [HERE](#). For more information, click [HERE](#).

### **About Generac Mobile**

Generac Mobile is a leading manufacturer of mobile light towers, generators, heaters and pumps. A wholly owned subsidiary of Generac Power Systems (NYSE: GNRC), Generac Mobile is headquartered in Berlin, Wis., where it manufactures all product lines to withstand the rigors of rental yards, commercial construction jobsites and extreme environments. The company's innovative solutions help construction, infrastructure, military, disaster response, oil and gas, mining and event professionals optimize their operations with mobile light, power, water and heat solutions, providing safer worksites and streamlined workflows that maximize efficiency and profit.
